PROFILE

Full stack developer with eight years of sample experience building accessible, maintainable web products. Comfortable owning a feature from data model to interface detail, and working closely with designers and product teams. Strongest where product thinking, frontend craft, and backend structure meet.

EXPERIENCE

Senior Full Stack Developer

2022 — Present

Northline Studio · San Francisco, CA

Lead developer on product interfaces and internal tools for small teams.

- Build and maintain React and TypeScript interfaces backed by Node.js services.
- Shape a shared component library with documented accessibility and keyboard behavior.
- Review performance budgets and reduce avoidable client-side JavaScript.
- Mentor two mid-level developers through structured code review and pairing.

Full Stack Developer

2019 — 2022

Common Ground · Remote

Delivered community and commerce features across the stack.

- Implemented Laravel APIs and PostgreSQL data models for member workflows.
- Rebuilt the onboarding flow around clearer states and better error recovery.
- Introduced automated accessibility checks into the release routine.
- Documented deployment steps and reduced handover ambiguity.

Frontend Developer

2017 — 2019

Fieldnote Digital · Portland, OR

Built responsive marketing sites and small web applications.

- Turned design systems into reusable, documented frontend components.
- Improved page performance through image strategy and CSS simplification.
- Worked directly with clients on content structure and launch support.

SELECTED PROJECTS

Analytics Dashboard WEB APP

Multi-tenant reporting interface with role-aware views, saved filters, and a calmer data hierarchy.

React · TypeScript · Node.js · PostgreSQL

Northline Shop MOBILE EXPERIENCE

Story-led storefront focused on product discovery, fast checkout, and resilient offline states.

React Native · Stripe · Contentful

CORE SKILLS

TypeScript · JavaScript · React · Node.js · PHP · Laravel · PostgreSQL · MySQL · MongoDB · HTML · CSS · Tailwind CSS · Accessibility · Performance · Design systems

EDUCATION

BSc Computer Science

Sample University · 2013 — 2017

Focus on web systems, human-computer interaction, and database design.

STRENGTHS

- End-to-end feature ownership
- Accessible interface implementation
- Clear technical communication
- Maintainable CSS architecture
- Practical performance work

CURRENTLY LEARNING

Progressive enhancement patterns, modern CSS layout, and better ways to document design decisions.

Nova Design System UI/UX

Accessible component library and documentation site for a growing product team.

TypeScript · Storybook · CSS
